

# Your best sleep. It's all about proper positioning.

Side, stomach or back, make your preferred sleep position the best position with a little help from the right pillows.

## On Your Back

## On Your Side

## On Your Stomach

Used alone or in combination, pillows promote proper positioning to reduce pain, pressure and discomfort.

### Cervical Pillow

- ✓ Use under your head
- ✓ Supports your spine by cradling the neck and head
- ✓ Helps keep back straight and prevents neck flexion

### Rolyan® SleepRite Posture Memory Pillow

Contour-designed, viscoelastic memory foam memorizes the distinct shape of your head and neck to deliver custom support and comfort\*.

Item #: 081294495  
Catalog #: A818610

### Half Roll Pillow

- ✓ Use under your stomach, lower back, feet, legs or ankles
- ✓ Helps restore spinal alignment
- ✓ Promotes therapeutic sleep posture and provides additional support

### Carex® Semi Roll Pillow

Ergonomically-designed to promote correct sleeping posture and spinal alignment. Memory foam interior contours the body for optimal support and comfort.\*

Item #: 081439744  
Catalog #: 565732

### Contour Pillow

- ✓ Use between your knees
- ✓ Keeps legs, hips, knees and pelvic area properly aligned
- ✓ Cushions knees and supports legs

### Contour Leg Pillow

Anatomically-designed to provide proper alignment to the legs, hips, and spine. Unique hourglass shape fits legs better than ordinary pillows, making it easier for the Contour Leg Pillow to move with you and stay in place throughout the night.\*
