Members of this year's judging panel were once again effusive in their praise of the quality of the program's award entrants:

- "Another tough decision this year," said Cat Ellis, editor at TechRadar, having judged several of the past awards programs. "The standard in Best in Biz Awards International is so high, it was tough to pick an overall winner."

- "There were several genuinely inspirational leaders among the companies I judged in this year's Best in Biz Awards International," said Martina Devlin, Irish Independent, having judged every International edition since 2013.

- "It was a great honor and privilege to be asked to judge at the Best in Biz Awards 2018 International," said Joe Pettit, managing editor of Tripwire, judging the awards for the third time. "The level of entries was even higher than in previous years – which made it such a difficult task to select a top three, let alone a winner. What a lot of the entrants are doing for their stakeholders is extremely admirable. Being in business isn't about profit, it's about changing lives for the better, which is clearly the case with the entries this year. Congratulations to all."

Winners in the 6th annual program were determined based on scoring from an independent panel of judges hailing from a wide spectrum of top-tier publications and media outlets and from 12 countries. Each year, only editors, writers and contributors to business, consumer, financial, trade and technology publications, as well as broadcast outlets and analyst firms, are invited to serve as judges in Best in Biz Awards. The program's uniqueness stems, in part, from this distinct composition of its judging panels, allowing it to best leverage the judges' unparalleled expertise, experience and objectivity to determine award winners.

This year's judging panel included writers and contributors to such publications as Computer Hoy (Spain), Gamers Intuition, HT Mobile (Israel), InBusiness (Cyprus and Greece), IAA Magazine (United Arab Emirates), Irish Independent (Ireland), J Arnold & Associates (Canada), NDR (Germany), Small Business IT (Canada), TechHim (India), TechnoFILE, TechRadar (UK), Tripwire (UK), Vyapar (India), Wirausaha dan Keuangan

(Indonesia) and Xbox Plus (Brazil).

Best in Biz Awards is now accepting entries in its 8th annual North American program, open to any company from any industry based in or operating in North America, in 70 company, department or team, executive, product, and CSR, media, PR and other categories. The late entry deadline is September 28, 2018.
